CORNELL ENGINEERING
MASTER OF ENGINEERING FINANCIAL AID

A Cornell Master of Engineering degree is an investment in your future career as a professional engineer or in business. Financial assistance is available through the graduate fields, the College of Engineering and the Graduate School.

CORNELL ENGINEERING FINANCIAL AID

Three full tuition Master of Engineering Committee (MEC) Scholarships are awarded to the most outstanding applicants to the MEng degree program. Applicants are nominated for an MEC Scholarship by their graduate field, and selections are made by the Master of Engineering Committee.

Cornell Engineering also provides limited financial aid awards to around 30% of MEng students collegewide. Selections are made by the individual graduate fields. Awards are in the form of partial tuition scholarships and teaching assistantships. The amounts vary depending on the type of award, student merit and availability of funds.

How to apply: Students are automatically considered for Cornell Engineering Financial Aid with their application for admission. A separate financial aid application is not required.

CORNELL ENGINEERING SPECIAL AWARDS

Teresa Lazaro Memorial Scholarship: awarded to a MEng student(s) who is a permanent resident of the Commonwealth of Puerto Rico. First preference is given to students enrolled in the MEng program in Civil and Environmental Engineering particularly to those who have interests in the area of structures and management in the field of civil engineering.

Edward R. and Paula H. Arps Scholarship: awarded to a MEng student(s) who was a member of the Cornell Crew Team for three years while an undergraduate student.

Lester B. Knight, Jr. Scholarship: awarded to students interested in combining their Cornell MEng training with a Johnson School of Business MBA degree. This is a tuition award of up to $40,000.

How to apply: Special awards require a separate application. Visit the website below for details.

PREFERRED DEADLINE—FEBRUARY 1

To be considered for College of Engineering Financial Aid and Special Awards for fall and spring semesters of the following academic year, students are encouraged have a complete MEng application on file by February 1. Students whose applications are received after the preferred deadline may be considered for financial aid subject to availability of funds.
