## Agenda, February 11, 2000
### CCGB Meeting

1. Approval of Minutes
2. Undergraduate Announcements
3. Residency Requirements

## CCGB Minutes
### January 28, 2000

**Approval of Minutes:** The minutes of 12/10/99 were approved as written. After numerous corrections, the minutes of 1/21/00 were approved.

**Undergraduate Announcements:** T. Healey (Assoc. Dean) announced that the ECAC would like to have 2 or 3 dazzling design projects presented by students at their 4/17/00 meeting. He asked faculty to check with their students to see if any of them would be willing to give a presentation. D. Maloney-Hahn (Advising) reminded faculty that the Student Experience Committee wants feedback on their survey results. C. Van Loan (CS) stated that there is an AEW trial section this semester.

**Proposed Changes to Liberal Studies Distribution** (handout): L. Lion (CEE) described the motion and said that it should go into effect immediately. C. Van Loan praised the proposal, stating that it simplifies things. F. Shumway (Advising) suggested that the changes be effective immediately, with all undergraduates (including seniors) being notified of the changes. F. Gouldin (M&AE) stated that the proposed changes should either begin immediately (with students notified via e-mail) or in the fall. There was a vote on waiting to send the proposal in the fall, with 3 in favor and 5 against. It was then unanimously decided to send out the proposal immediately, with e-mails sent to students and advisors which notified them of the changes.

**Prioritize Future Agenda Items For The Semester:** P. Kintner (EE) suggested that the importance of the residency issue be examined. F. Gouldin (M&AE) suggested that electronic course evaluations be reviewed. T. Healey (Assoc. Dean) stated that the electronic course evaluations are an ongoing project and that it has basically been passed on to CIT. J. Jenkins (T&AM) stressed the need to examine the nature of the questions for ABET. D. Maloney-Hahn (Advising) stated that David Way’s office has worked with the evaluations, with the problem of delivery vs. content addressed. Lots of contradictions remain. J. Jenkins (T&AM) added that the Math Sequence Report will be discussed in 2 weeks. D. Maloney-Hahn (Advising) said that the results of the Student Experience Committee would be presented this semester.

The meeting adjourned at 8:54 a.m.
